

Walter Robbs Wins 2 Appearance Commission Awards

WINSTON-SALEM, NC (June 5, 2014) - Two local projects, designed by Walter Robbs, were given awards by the Winston-Salem/ Forsyth County Community Appearance Commission (CAC) at the awards program held today.

The CAC Awards honor the achievements of individuals, businesses, and community groups that have made outstanding contributions to enhance the appearance of the city and county.

The Goodwill Industries of Northwest North Carolina's new development on Waughtown Street received the Joseph Winston Award, a CAC award that recognizes projects that demonstrate what rehabilitation can do for the visual and economic revitalization of small neighborhoods.

The Winston Salem/ Forsyth County Schools' Career Center won the Mayor's Award. This CAC award is given in recognition of a new construction project within the City of Winston-Salem that has both a visual and economic role in the revitalization of the downtown.

Walter Robbs is proud to work with clients such as Goodwill and W-S/FC Schools, who value the aesthetic character of every area within our community.
